

DAKSH CHAUHAN

Lucknow, UP | +91 86043 02059 | dakahchauhan111@gmail.com | github.com/DakshChauhan2005

EDUCATION

Babu Banarasi Das University (Lucknow)

2023 - 2027

Bachelors of Technology in Computer Science and Engineering (CGPA: 8.03)

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frontend: React, HTML5, CSS3, Tailwind CSS, SCSS, Bootstrap, GSAP

Backend: Node.js, Express, Firebase, MongoDB, PostgreSQL

Tools & Platforms: Git/GitHub, VS Code, Postman, Docker (basics), Linux (basics), Figma (basics), Deployment (Vercel/Heroku)

Coursework: Data Structures and Algorithms, Basics of Web Principles

PROJECTS

Neighbourhood Service Marketplace

React 19, Node.js, Express, MongoDB, Redux Toolkit, JWT | [GitHub](#) | [Live](#)

- Built a full-stack marketplace platform connecting customers with local service providers with real-time bookings, **3-tier role-based access control** (customer, provider, admin), and **provider earnings** dashboard.
- Implemented secure authentication using **OTP-based email verification** (nodemailer, crypto-generated codes), JWT with refresh token rotation, bcrypt password hashing (rounds: 10), and secure httpOnly cookies with rate limiting (3 OTP resends/minute, 5 login attempts tracked). Added OTP attempt limiting and MongoDB TTL indexes for auto-cleanup.
- Built search, filtering, pagination, and a 5-star review system. Achieved 95%+ uptime and **<200ms** average response time.

Tavily + Mistral Agent (CLI)

Node.js, LangChain, Mistral AI, Tavily Search, Nodemailer | [GitHub](#)

- Built an intelligent CLI agent that autonomously performs web searches via Tavily, sends emails through Gmail, and maintains multi-turn conversations using LangChain and Mistral AI.
- Integrated tool-calling capability allowing the agent to decide when to use search or email tools based on user intent.

ACHIEVEMENTS & CERTIFICATIONS

- **3rd Place Kalpathon 2.0 Coding Hackathon** - Web Category (BBD University, Apr 2026) | 3rd Place - Vibe Design Hackathon, **Web Category** (Apr 2026).
- **Smart India Hackathon 2025** - Cleared internal round with AI/ML timetable generator (Problem #25091, Smart Automation)

LEADERSHIP & ACTIVITIES

- Mentored 2 junior devs on React best practices
- Led UI/UX redesign discussions in Kalpathon (resulted in 3rd place)
